

**HAZARD CLASSIFICATIONS:**

Skin sensitisation Category 1,
Hazardous to soil organisms

WARNING: May cause an allergic skin reaction. Toxic to the soil environment.

PERSONAL PROTECTION: Avoid breathing vapours. Wear protective gloves. Contaminated clothing should not be allowed out of workplace. Wash contaminated clothing before reuse.

STORAGE: Store in original container, tightly closed and away from foodstuffs. Store in a cool dry well ventilated area avoiding sunlight and extreme temperatures.

SHELF LIFE: When stored appropriately this product should show no significant degradation. Contact your supplier if you require further information about the product.

ENVIRONMENT: Take all reasonable steps to ensure the substance does not cause any significant adverse effects to the environment beyond the application area. Do not apply into or onto waterways. Avoid release to the environment.

SPILLS AND DISPOSAL: Deal with all spillages immediately. When dealing with spills wear personal protective clothing and equipment. Collect all spills in labelled drums that can be sealed for safe disposal. Avoid release to the environment. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

PRODUCT DISPOSAL: If possible, dispose of by using all product according to the label, otherwise dispose of in an approved landfill.

CONTAINER DISPOSAL: Do not use this container for any other purpose. Triple rinse and dispose of via Agrecovery (www.agrecovery.co.nz) or at an approved landfill.

SAFETY DATA SHEET: A safety data sheet is available from Grosafe Chemicals Ltd.

FIRST AID: If contact with skin occurs wash thoroughly with soap and running water. If skin irritation occurs, get medical advice / attention. If medical advice is needed have the product container or label at hand.

EMERGENCY RESPONSE: 0800 CHEMCALL (0800 243 622)

GENERAL INSTRUCTIONS:

Grosafe® Zonda® Stump Gel is a ready to use herbicide for direct application onto a wide range of trees, woody weeds, shrubs, scrambling perennial weeds and weeds with creeping or bulbous roots. Apply product immediately to cut stems or stumps by swabbing with the brush applicator. Smaller plants may die over a period of a couple of weeks and larger tree stumps could take a few months to die. If there is any regrowth reapply the Grosafe® Zonda® Stump Gel. It is best to apply when the plant is actively growing (Spring and Autumn). Do not apply during rainfall or 12 hours prior to rainfall as this will give a poor result. Do not apply on or around food or animal crops or areas to be grazed by animals. Grosafe® Zonda® Stump Gel is a non-selective herbicide – use only on plant species as listed.

Grosafe®**WARNING**

KEEP OUT OF REACH OF CHILDREN
READ LABEL BEFORE USE

ZONDA® STUMP GEL

NON SELECTIVE HERBICIDE

A ready to use herbicidal gel for direct application onto stump and cut stems; including wild ginger, agapanthus and woolly nightshade trees.

**READY
TO USE
GEL**

ACTIVE INGREDIENT: 43g/kg picloram as the potassium salt in the form of a gel.

200g**DIRECTIONS FOR USE:**

Woody weeds: Old Mans Beard, Climbing Spindleberry, Japanese Honeysuckle, Grey Willow Gorse, Cotoneaster, Darwins Barberry, Elaeagnus and Woolly Nightshade. Cut stems horizontally and preferably no higher than 100mm above ground level, immediately apply a 5mm thick layer of Grosafe® Zonda® Stump Gel over the cut surface of the plant. On stems of 20mm diameter or greater treat 80% of the stems including the leader stems. **Woolly Nightshade trees:** Cut a series of grooves 15–20mm deep around main trunks of the tree using an axe or pruning saw. The grooves should have a 20–40mm gap between each one and then immediately apply a 5mm layer of Grosafe® Zonda® Stump Gel over the surface. **Rhizomatous plants:** Wild Ginger, Agapanthus and Kahili. Prune the Agapanthus horizontally at the base and immediately apply to the cut stem 5mm layer of Grosafe® Zonda® Stump Gel across the cut surface of the rhizome. On Kahili Ginger prune and treat the same as the Agapanthus but, if there are more than four rhizomes between the shoots, drill a 10mm hole in every fourth rhizome and fill the hole with Grosafe® Zonda® Stump Gel. **Wandering Jew:** Apply Grosafe® Zonda® Stump Gel at 16g per square metre over the foliage using a paint roller or similar, making sure the foliage is completely flattened during the application. **LIABILITY:** This product must be used strictly as directed. Grosafe® Chemicals Ltd will not be liable for any loss or damage arising from a failure to strictly follow the directions for use.

Approved pursuant to the HSNO Act 1996 HSR101073
See www.epa.govt.nz for approval controls.

WARRANTY This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance when packed. The user bears the risk for damage resulting from factors beyond the manufacturer's control. The manufacturer declines all liability for damage resulting from improper storage or use of the product.
