Agcare® Acetochlor 840

840g/L of acetochlor in the form of an EC. For pre-emergent weed control in maize and sweetcorn, and 10 weeks residual control of annual grasses and many broadleaf weeds.
Pack Sizes: 20L, 200L, 1000L

Agcare® Atrazine 900 WDG

900g/kg of atrazine in the form of a WDG. A residual herbicide for the control of certain broadleaf weeds in maize, sweetcorn, linseed and established lucerne.
Pack Sizes: 10kg

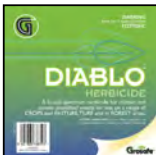

Agcare® MCPA 750

750g/L of MCPA as the dimethylamine salt in the form of a SC. A selective herbicide for the control of many broadleaf weeds in pastures grass playing fields, lawns, cereals, grass seed and linseed crops.
Pack Sizes: 20L, 200L, 1000L

Bentazone 480

480g/L bentazone as the sodium salt in the form of a SC. A selective post-emergence herbicide for use on onions, cereals, clover and grass seed crops, pasture, potatoes, soy beans, peas, lucerne and turf.
Pack Sizes: 20L

Diablo®

300g/L clopyralid as the triisopropanolamine salt in the form of a SC. A broad spectrum herbicide for thistles and certain broadleaf weeds for use on a range of crops and pasture, turf and in forest areas.
Pack Sizes: 5L

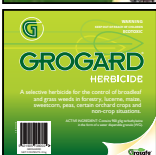

Eagle®

500 g/L ethofumesate in the form of a SC. A herbicide for barley grass control in pasture and weed control in turf ryegrass, fodder beet and red beet.
Pack Sizes: 20L

Firstrate® 450 SC

450g/L glyphosate as the isopropylamine salt in the form of a SC. A non selective herbicide for the control of many annual and perennial weeds.
Pack Sizes: 20L, 200L, 1000L

GroGard®

900g/kg terbuthylazine in the form of a WDG. A selective herbicide for the control of broadleaf and grass weeds in forestry, lucerne, maize, sweetcorn, peas, certain orchard crops and non-crop situations.
Pack Sizes: 20kg

Herald®

520g/L Haloxyfop-p as the methyl ester in the form of a EC. A selective post emergence herbicide for the control of grass weeds and storksbill in many broadleaf crops, orchards and forestry.
Pack Sizes: 5L

HexaGard® 750

637.5g/kg terbuthylazine plus 112.5g/kg hexazinone in the form of a WDG. For selective weed control in forestry and non selective weed control in industrial situations.
Pack Sizes: 10kg

HexaGard® 750 Extra

610g/kg terbuthylazine plus 140g/kg hexazinone in the form of a WDG. For selective weed control in forestry and non selective weed control in industrial situations.
Pack Sizes: 10kg

Hexogon® Plus

900g/kg hexazinone in the form of a WDG. A selective herbicide for the control of weeds in Radiata pine forests, established lucerne and non cropland areas.
Pack Sizes: 10kg

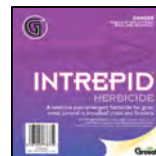

Hortcare® Glyphosate 360 SC

360g/L glyphosate as the isopropylamine salt in the form of a SC. For the control of most annual and perennial weeds in agriculture, horticulture, forestry, drains, aquatic areas and a wide range of brush weeds.
Pack Sizes: 20L, 200L, 1000L

Hortcare® Glyphosate 680 WSG

680g/kg glyphosate as the mono ammonium salt in the form of a WDG. For the control of most annual and perennial weeds in agriculture, horticulture, forestry, drains, aquatic areas and a wide range of brush weeds.
Pack Sizes: 20kg (4 x 5kg bags)

Intrepid®

360g/L clethodim in the form of an EC. Also contains 582g/L dearomatized hydrocarbon solvent and 17.5 g/L calcium dodecylbenzene sulphonate. A selective post-emergent herbicide for grass weed control in broadleaf crops, forestry.
Pack sizes: 5L

Knockdown Plus®

600g/L triclopyr as the butoxy ethyl ester in the form of an EC. Grass friendly herbicide for the control of gorse, broom, blackberry and other brush weeds. Also for broadleaf weed control in turf.
Pack Sizes: 20L

Machette® 540

540g/L glyphosate as the potassium salt in the form of a SC. A non-residual, non-selective herbicide for weed control prior to planting crops and pasture, prior to harvesting some crops, for general weed control in horticulture, agriculture, forestry.
Pack Sizes: 20L, 200L, 1000L

MatchPoint™

375g/L MCPB and 25g/L MCPA both as the sodium salts in the form of a SC. For the control of broadleaf weeds in pasture, grass, white clover seed crops, peas and cereals.
Pack Size: 20L

Officiate®

800g/kg flumetsulam in the form of a WDG. For the selective control of broadleaf weeds in new and established pasture, chicory, clover, lucerne and maize.
Pack Sizes: 500g

Piccolo™

150g/L picloram and 225g/L clopyralid both as the monoethanolamine salt in the form of a SC. Controls certain broadleaf weeds in fodder brassicas and radiata pine.
Pack Sizes: 5L, 200L

QuadBeet®

60g/L phenmedipham, 60g/litre desmedipham, 60g/litre ethofumesate and 200g/litre metamitron in the form of a SE. For the control of broadleaf weeds in fodder beet, red beet and sugar beet.
Pack Sizes: 20L

Reclaim® Brushkiller

100g/L picloram as the amine salt and 300g/litre triclopyr as the butoxyethyl ester, in the form of an EC. For the control of a wide range of brush weeds including gorse, broom, blackberry, sweet brier, matagouri.
Pack Sizes: 1L, 5L, 20L, 200L, 1000L

Reply® 200

200g/kg metsulfuron-methyl in the form of a WDG. Used for the control of gorse and other scrub weeds in pasture and waste areas.
Pack Sizes: 20kg

Reply® 600

600g/kg metsulfuron-methyl in the form of a WDG. Used for the control of gorse and other scrub weeds in pasture and waste areas.
Pack Sizes: 20kg

HERBICIDES

Scythe®

200g/L glufosinate ammonium in the form of a SC. A non-selective contact herbicide for the control of a wide range of broadleaf and grass weeds in orchards, vineyard and non crop areas.
Pack Sizes: 20L

TriBeet®

Contains: 50g/L phenmedipham, 50 g/litre ethofumisate and 150g/litre metamitron in the form of a SC. For the control of broadleaf weeds in fodder beet, red beet and sugar beet.
Pack Sizes: 20L

Zonda® Stump Gel

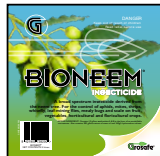

43g/kg picloram as the potassium salt in the form of a gel. A ready to use herbicidal gel for direct application onto stump and cut stems; including wild ginger, agapanthus and woolly nightshade trees.
Pack Sizes: 5kg, 400g

INSECTICIDES

Announce®

50g/kg emamectin benzoate in the form of a WDG. For the control of leafroller caterpillars on avocados, grapes, kiwifruit and pipfruit.
Pack Sizes: 600g

BioNeem®

10g/L azadirachtin A & B in the form of an EC. Also contains 300 g/litre extract of neem oil and 540g/L hydrocarbon solvent. For the control of aphids, mites, thrips, whitefly, leaf-mining flies, mealy bugs, scale on fruit vegetables.
Pack Sizes: 5L

Bactur® WDG

32,000 International Units/ mg of Bacillus thuringiensis subspecies kurstaki. A biological Insecticide for the control of leafroller caterpillars and other lepidopterous larvae on various fruit and vegetable crops.
Pack Sizes: 1kg

Commend®

480g/L thiacloprid in the form of a SC. A systemic insecticide for the control of armoured scales, bronze beetle, codling moth, mealy bugs, Froggatt's apple leafhopper, thrips on avocados and armoured scale on kiwifruit.
Pack Sizes: 5L

EnSpray 99®

821g/L (980ml/L) mineral oil EC. 99.0 % unsulphonated residue. Narrow range spray oil for the control of armoured scale on kiwifruit, armoured scale, greenhouse thrips, six-spotted mite on avocados, scale, aphids, mites on citrus, pip and stone fruits, thrips on citrus, powdery mildew on grapes.
Pack Sizes: 5L, 20L, 200L, 1000L

Etoxamite®

110g/L etoxazole in the form of a SC. A miticide for controlling Red mite and Two-spotted mite in pipfruit and Six-spotted mite in avocados.
Pack Sizes: 5L

GroVentive®

100g/L spirotetramat in the form of a SC. For the control of apple leafcurling midge, armoured scales in apples, pear leafcurling midge in pears, mealy bugs in grapes, armoured scales in kiwifruit, Kelly's citrus thrips, armoured scales in citrus, thrips, mealy bug in blueberries, tomato potato psyllid in potatoes.
Pack Sizes: 5L

GroVentive® Ultra 240 SC

240g/L spirotetramat in the form of a SC. A systemic insecticide for control of apple leafcurling midges, armoured scales in apples, pear leafcurling midges in pears, mealy bugs in grapes, armoured scales in kiwifruit, Kelly's citrus thrips, Australian Citrus Whitefly and armoured scales in citrus, and thrips, mealy bugs in blueberries and tomato/potato psyllid in field tomatoes and potatoes.
Pack Sizes: 5L

INSECTICIDES

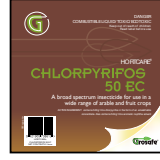

Grub X®

2g/kg Chlorantraniliprole in the form of a DG. A ready to use spreadable insecticide granule to control a wide range of common grubs, beetles and caterpillars in lawns, turf and around ornamental plants.
Pack Sizes: 15kg

Hortcare® Abamectin

18g/litre of abamectin in the form of an EC. For the control of mites on avocados, apples, pears, indoor tomatoes, strawberries and ornamentals, leafrollers on kiwifruit and tomato-potato psyllid on potatoes.
Pack Sizes: 5L

Hortcare® Chlorpyrifos 50 EC

500g/litre of chlorpyrifos in the form of an EC. A broad spectrum insecticide for use in a wide range of arable and fruit crops.
Pack Sizes: 5L, 20L

Hortcare® Lime Sulphur

200g/L sulphur as polysulphides in the form of a SC. Used for the control of fungal diseases, insects and mites on a range of horticultural crops.
Pack Sizes: 20L, 200L, 1000L

Hortcare® Spinosad

120g/litre spinosad in the form of a SC. For the control of insect pests in fruit, vines, vegetables and fodder brassicas.
Pack Sizes: 5L

PiriGro™ 500 WDG

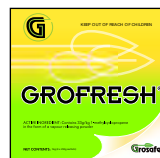

500g/kg pirimicarb in the form of a WDG. A Carbamate insecticide for Aphid control in fruit, cereal, vegetable and flowering crops.
Pack Sizes: 5kg

Talent®

240g/litre methoxyfenozide in the form of a SC. A specific insecticide for the control of codling moth on pipfruit and leafrollers on avocados, grapes, kiwifruit, nectarines, peaches and pipfruit.
Pack Sizes: 5L

PLANT GROWTH REGULATORS

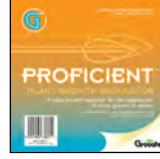

GroFresh®

33g/ kg 1-methylcyclopropene in the form of a vapour releasing powder. A powder that when mixed with hot water releases the volatile active ingredient 1-methylcyclopropene (1-MCP).
Pack Sizes: 10g

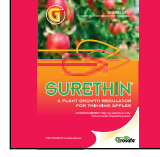

Hortcare® Hi-break®

540g/L hydrogen cyanamide in the form of a SC. A plant growth regulator which promotes uniform increased bud-break and flowering of kiwifruit, and earlier concentrated flowering of apples.
Pack Sizes: 20L, 200L

Proficient™

100g/kg prohexadione-calcium in the form of a WDG. A plant growth regulator for the suppression of shoot growth in apples.
Pack Sizes: 3kg

SureThin®

700g/kg metamitron in the form of a WDG. A plant growth regulator for thinning apples.
Pack Sizes: 1kg (4 x 250g sachets)

FUNGICIDES

Azoxystar®

250g/litre azoxystrobin in the form of a SC. For the control of a range of diseases in Wheat, Barley, Potatoes, Ryegrass seed crops, Sweet Corn, Maize, Grapes, Peas, Onions, Field Tomatoes and Turf.

Pack Sizes: 20L

EnSpray 99®

821g/L (980ml/L) mineral oil EC. 99.0 % unsulphonated residue. Narrow range spray oil for the control of armoured scale on kiwifruit, armoured scale, greenhouse thrips, six-spotted mite on avocados, scale, aphids, mites on citrus, pip and stone fruits, thrips on citrus, powdery mildew on grapes.

Pack Sizes: 5L, 20L, 200L, 1000L

Fortuna™

500 g/L fluzazinam in the form of a SC. For control of a wide range of diseases in grapes, field tomatoes, potatoes and vegetable brassicas.

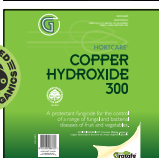

Pack Sizes: 5L

GroCap®

900 g/kg captan in the form of a WDG. A fungicide for the control of certain fungous diseases of fruit, vegetables, ornamentals, turf, greenhouse crops and for certain soil borne diseases.

Pack Sizes: 10kg

Hortcare® Copper Hydroxide 300

300g/kg copper as copper hydroxide in the form of a WDG. A broad spectrum protectant fungicide for the control of a range of fungal and bacterial diseases of fruit, vegetables, radiata pine and roses.

Pack Sizes: 10kg

Hortcare® Lime Sulphur

200g/L sulphur as polysulphides in the form of a SC. Used for the control of fungal diseases, insects and mites on a range of horticultural crops.

Pack Sizes: 20L, 200L, 1000L

Hortcare® Sulphur 800DF

800g/kg sulphur in the form of a WDG. A protectant fungicide for the control of mildew and rusts on a range of horticultural crops.

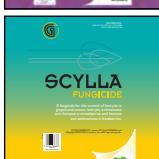

Pack Sizes: 15kg

MetiGro®

700 g/kg metiram in the form of a WDG. For the control of fungus diseases in apples, pears and grapes.

Pack Sizes: 10kg

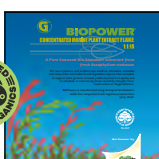

Scylla®

375 g/kg cyprodinil and 250 g/kg fludioxonil in the form of a WDG. A fungicide for the control of botrytis in grapes and onions, botrytis, anthracnose and rhizopus in strawberries and botrytis and anthracnose in blueberries.

Pack Sizes: 5kg

ORGANICS

BioPower®

A BioGro Certified Organic Seaweed. A pure seaweed bio stimulant extracted from fresh Ascophyllum nodosum

Pack Sizes: 1kg, 20kg

BioPower® Liquid

A BioGro Certified Organic Liquid Seaweed. A pure seaweed liquid bio stimulant extracted from fresh Ascophyllum nodosum

Pack Sizes: 20L, 200L, 1000L

ORGANICS

BioPower® N Boost

A BioGro Certified Organic Liquid Seaweed. An organic Nitrogen Boosted Seaweed Bio Stimulant extracted from fresh Ascophyllum nodosum with Fish Amino Acid

Pack Sizes: 20L, 1000L

BioSpread®

100% Polyether Modified Trisiloxane. An organo-silicone, biocompatible super spreader and surfactant for use with fungicides, insecticides, herbicides, plant growth regulators and foliar fertilisers.

Pack Sizes: 5L, 20L

Eckosil Shield®

13.86g/L silicon and 29.5g/L silicon dioxide. A liquid fertiliser for use as a cuticle enhancer and stress protectant in all horticultural crops, vegetable crops, orchards and vineyards.

Pack Sizes: 1L, 5L, 20L

EcoSpread®

100% Polyether Modified Trisiloxane. An organo-silicone, biocompatible super spreader and surfactant for use with fungicides, insecticides, herbicides, plant growth regulators and foliar fertilisers.

Pack Sizes: 5L, 20L

EnSpray 99®

821g/L (980ml/L) mineral oil EC. 99.0 % unsulphonated residue. Narrow range spray oil for the control of armoured scale on kiwifruit, armoured scale, greenhouse thrips, six-spotted mite on avocados, scale, aphids, mites on citrus, pip and stone fruits, thrips on citrus, powdery mildew on grapes.

Pack Sizes: 5L, 20L, 200L, 1000L

Hortcare® Copper Hydroxide 300

300g/kg copper as copper hydroxide in the form of a WDG. A broad spectrum protectant fungicide for the control of a range of fungal and bacterial diseases of fruit, vegetables, radiata pine and roses.

Pack Sizes: 10kg

Hortcare® Lime Sulphur

200g/L sulphur as polysulphides in the form of a SC. Used for the control of fungal diseases, insects and mites on a range of horticultural crops.

Pack Sizes: 20L, 200L, 1000L

Hortcare® Sulphur 800DF

800g/kg sulphur in the form of a WDG. A protectant fungicide for the control of mildew and rusts on a range of horticultural crops.

Pack Sizes: 15kg

Hortcare® Spinosad

120g/litre spinosad in the form of a SC. For the control of insect pests in fruit, vines, vegetables and fodder brassicas.

Pack Sizes: 5L

InocBloc® Organic Prune'n'Paste

InocBloc Pine Tar. Paint-on easy to apply pine based product that provides an effective natural barrier against devastating trunk diseases.

Pack Sizes: 200g, 5kg

NEB-26®

A blend of 26 Natural Root Exudates to enhance soil microbial activity. Stimulates soil fungi increasing uptake of nutrients and soil health - improves yield and increases growth rates of all fruit, vegetables, arable crops, pasture, ornamentals and turf.

Pack Sizes: 20L

OceanFert®

Organic seaweed fertiliser. Use in horticultural and vegetable crops, ornamentals, nurseries, lawns and turf as a slow release fertiliser, soil conditioner to support plant growth, increase yield, quality and support plants against abiotic and biotic stress.

Pack Sizes: 25kg, 1000kg

BIO NUTRIENTS/BIO STIMULANTS

BioPower®
A BioGro Certified Organic Seaweed. A pure seaweed bio stimulant extracted from fresh *Ascophyllum nodosum*
Pack Sizes: 1kg, 20kg

BioPower® Liquid
A BioGro Certified Organic Liquid Seaweed. A pure seaweed liquid bio stimulant extracted from fresh *Ascophyllum nodosum*
Pack Sizes: 20L, 200L, 1000L

BioPower® N Boost
A BioGro Certified Organic Liquid Seaweed. An organic Nitrogen Boosted Seaweed Bio Stimulant extracted from fresh *Ascophyllum nodosum* with Fish Amino Acid
Pack Sizes: 20L, 1000L

BioPower® Stimulate®
A pure seaweed liquid extracted from fresh *Ascophyllum nodosum* plus added bio stimulants.
Pack Sizes: 20L, 200L, 1000L

NEB-26®
A blend of 26 Natural Root Exudates to enhance soil microbial activity. Stimulates soil fungi increasing uptake of nutrients and soil health - improves yield and increases growth rates of all fruit, vegetables, arable crops, pasture, ornamentals and turf.
Pack Sizes: 20L

FERTILISERS

Calcigro®
150g/L calcium and 80g/L seaweed amino acids as calcium amino acid chelate. A foliar seaweed extract liquid calcium fertiliser for the correction of calcium deficiencies in horticultural crops, viticulture, vegetables and fruit trees.
Pack Sizes: 20L, 1000L

Eckosil Shield®
13.86g/L silicon and 29.5g/L silicon dioxide. A liquid fertiliser for use as a cuticle enhancer and stress protectant in all horticultural crops, vegetable crops, orchards and vineyards.
Pack Sizes: 20L

GroBor®
140g/L boron and 21g/L seaweed extract. A foliar boron supplement for the correction of boron deficiencies in horticultural crops, viticulture, vegetables and fruit trees.
Pack Sizes: 20L, 1000L

GreenBor®
100g/kg boron in the form of magnesium and calcium borate compounds. Controlled release Boron Fertiliser.
Pack Sizes: 25kg

OceanFert®
Organic seaweed fertiliser. Use in horticultural and vegetable crops, ornamentals, nurseries, lawns and turf as a slow release fertiliser, soil conditioner to support plant growth, increase yield, quality and support plants against abiotic and biotic stress.
Pack Sizes: 25kg, 1000kg

SUPER SPREADERS/SURFACTANTS

AquaSpread®
100% Polyether Modified Trisiloxane. An organo-silicone, biocompatible super spreader and surfactant for use with fungicides, insecticides, herbicides, plant growth regulators and foliar fertilisers.
Pack Sizes: 5L, 20L

BioSpread®
100% Polyether Modified Trisiloxane. An organo-silicone, biocompatible super spreader and surfactant for use with fungicides, insecticides, herbicides, plant growth regulators and foliar fertilisers.
Pack Sizes: 5L, 20L

EcoSpread®
100% Polyether Modified Trisiloxane. An organo-silicone, biocompatible super spreader and surfactant for use with fungicides, insecticides, herbicides, plant growth regulators and foliar fertilisers.
Pack Sizes: 5L, 20L

EnSpray 99®
821g/L (980ml/L) mineral oil EC. 99.0 % unsulphonated residue. Narrow range spray oil for the control of armoured scale on kiwifruit, armoured scale, greenhouse thrips, six-spotted mite on avocados, scale, aphids, mites on citrus, pip and stone fruits, thrips on citrus, powdery mildew on grapes.
Pack Sizes: 5L, 20L, 200L, 1000L

Force®Ultra
100% Polyalkyleneoxide Modified Heptamethyltrisiloxane. An organo-silicon surfactant for improved penetration and adhesion of agricultural, forestry and horticultural herbicides and other pesticides.
Pack Sizes: 1L, 5L, 20L, 1000L

Hybrid®SB
560g/L alkylbenzene ether sulfonate solution, 560g/L hydroxypropanetricarboxylate as a SS. Multifunctional non-ionic wetting, buffering adjuvant formulated to enhance performance of pesticides, plant growth regulators, foliar fertilisers.
Pack Sizes: 1L, 4L

OptiSpread®1000
1000 g/L alkoxyated alcohols. Premium quality biodegradable wetting and spreading agent for use with insecticides, fungicides and herbicides.
Pack Sizes: 20L

OTHER PRODUCTS

GroMark RedLine

Red marker dye additive to provide a temporary indication of spot or boom sprayed areas.
Pack Sizes: 1L, 5L

InocBloc® Organic Prune'n'Paste

InocBloc Pine Tar. Paint-on easy to apply pine based product that provides an effective natural barrier against devastating trunk diseases.
Pack Sizes: 200g, 5kg

Haven®

Non-plant food ingredient 20% Cetyl alcohol, 80% inert ingredients. Long chain fatty alcohols that reflect the heat energy falling on the leaf, reducing transpiration rates. Apply before anticipated heat events.
Pack Sizes: 20L, 1000L

Kiwi Sheen CP

400g/L phosphoric acid in the form of a SC. A buffered solution of calcium phosphate and surfactant in water, formulated for use as a pre-harvest treatment for the removal of water stain on kiwifruit.
Pack Sizes: 20L, 200L, 1000L

Kiwi Stainoff LF

700g/L lactic acid in the form of a SC. A low-foam phosphate-buffered solution of lactic acid and surfactant, water stain remover for kiwifruit.
Pack Sizes: 20L, 200L, 1000L

SAP

SAP is a high performance super absorbent polymer based water retainer scientifically formulated using an innovative cross-linked co-polymer of potassium polyacrylate.
Pack Sizes: 25kg
