

OCEAN N BOOST™

NITROGEN BOOSTED SEAWEED

Extracted from fresh *Ascophyllum nodosum* seaweed with Fish Amino Acid added. For use on all plants to increase yields, improve fruit quality and to aid plants in overcoming climatic factors, leading to improved resistance from insect attack or fungal infection.

NPK: 10% | 1.2% | 4%

Consistent use of Ocean N Boost™ supplements a well balanced nutritional programme.

- Increase desirable yield
- Improve overall plant nutritional health
- Improve root growth and development
- Improve plant vigour and maximise crop potential during periods of stress
- High NPK rating

500ml concentrate makes up to 166L

500ml CONCENTRATE

500ml READY TO USE SPRAY

OCEAN N BOOST™

LIQUID MARINE PLANT EXTRACT 10.0:1.2:4.0

Ideally should be applied in the cooler morning or evening hours.
It is not advisable to spray leaves during the heat of the day.

DIRECTIONS FOR USE: (concentrate)

Mix Ocean N Boost™ at 3ml per 1L water.

For use on:

ALL VEGETABLES: First application at bud burst, then every 3 weeks thereafter (including during full bloom) until harvest.

ALL FRUITS: First application at bud burst, then every 3 weeks thereafter (including during full bloom) until harvest.

ROSES AND ORNAMENTALS: Apply to roses at early leaf development and after each deheading.

POT PLANTS: Apply as a soil drench once a month.

LAWN AND TURF: Regular applications (monthly) are beneficial. The Bio stimulant activity of Ocean N Boost™ will support beneficial soil micro-organisms, improve grass growth and help reduce soil born disease symptoms in turf.

Suitable as a soil drench/conditioner.

Grosafe EcoSpread® can be used to improve efficacy.

Withholding period: 1 day

ACTIVE INGREDIENT: 700ml/L Ascophyllum Nodosum liquid seaweed and 400g/L Fish Amino Acid.

DIRECTIONS FOR USE: (RTU - ready to use)

Ensure good foliar spray coverage.

For use on:

ALL VEGETABLES: First application at bud burst, then every 3 weeks thereafter (including during full bloom) until harvest.

ALL FRUITS: First application at bud burst, then every 3 weeks thereafter (including during full bloom) until harvest.

ROSES AND ORNAMENTALS: Apply to roses at early leaf development and after each deheading.

POT PLANTS: Apply as a soil drench once a month.

INDOOR PLANTS: Apply every 3 weeks to indoor pot plants to improve over all plant health.

Withholding period: 1 day

ACTIVE INGREDIENT: Ascophyllum Nodosum liquid seaweed and Fish Amino Acid.
